Welcome to **APEKSHA**

Welcome to **Apeksha**, where ambition meets opportunity and potential turns into performance. We are delighted to have you begin this important academic journey with us.

Intermediate education plays a crucial role in shaping a student's future. At **Apeksha**, we understand this responsibility and are committed to providing a strong academic foundation, disciplined learning environment, and continuous guidance. Our focus is not only on securing excellent board results but also on preparing students for competitive examinations such as NEET, EAPCET, CA Foundation, CLAT, IPMAT, and CUET.

With experienced faculty, structured academic planning, regular assessments, and personalized attention, we ensure that every student receives the support needed to grow academically and personally. We believe that true education builds confidence, clarity, and character.

At **Apeksha**, students are encouraged to dream big, work consistently, and strive for excellence. We maintain close communication with parents and provide a safe, focused, and motivating environment that supports holistic development. We warmly welcome you to the **Apeksha** family.

Let us work together to build a strong foundation for a bright and successful future.

AIM HIGH. STAY FOCUSED. ACHIEVE EXCELLENCE.

Career Pathways After 10th

Choosing the right stream after 10th is an important step in shaping your future. Each stream opens doors to different career opportunities based on a student's interests, strengths, and goals. At **Apeksha**, we guide students to choose the path that best suits their ambitions.

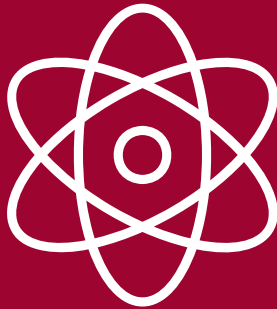

Science & Technology Stream (MPC)

This stream is ideal for students interested in engineering, technology, and innovation. It builds strong analytical and problem-solving skills and prepares students for competitive exams like IIT-JEE, EAPCET, and NDA. Career paths include Engineering, Data Science, Artificial Intelligence, Robotics, Architecture, Defense Services, and Research.

Medical & Life Sciences Stream (BiPC)

BiPC is perfect for students passionate about healthcare, medicine, and biological sciences. It prepares students for exams like NEET and EAPCET leading to careers that focus on improving and saving lives. Career paths include Doctor, Dentist, Pharmacist, Biotechnology Scientist, Nutritionist, Agriculture Scientist, and Medical Researcher.

01

02

04

03

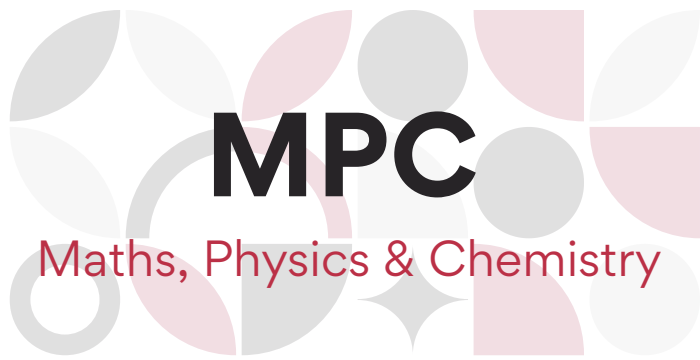

Finance & Commerce Stream (MEC)

This stream is suitable for students interested in finance, business analytics, and corporate careers. Mathematics gives an advantage in professional courses and financial analysis. Career paths include Chartered Accountant (CA), Cost & Management Accountant (CMA), Company Secretary (CS), Investment Banker, Economist, and Business Analyst.

Business, Law & Management Stream (CEC)

CEC is ideal for students who want careers in law, management, business, and administration. It builds strong understanding of governance, business operations, and economic systems. Career paths include Lawyer, Corporate Lawyer, Business Manager, Civil Servant, Entrepreneur, Journalist, and Management Professional.

MPC

Maths, Physics & Chemistry

MPC (Mathematics, Physics, Chemistry) is one of the most powerful streams after 10th because it opens doors to high-demand, high-growth careers. Mathematics builds problem-solving ability. Physics develops analytical and practical understanding. Chemistry strengthens scientific reasoning. These skills help not just in exams, but in real-life decision making.

Core Subjects:

- Mathematics
 - Physics
 - Chemistry
 - English
- + Communication & Life Skills

Foundation:

- IIT/JEE (Mains & Advanced)
- IIT/JEE (Mains)/EAPCET/NDA

JEE/EAPCET/NDA:

IIT

NIT

EAPCET

NDA

- **JEE (Joint Entrance Examination)** – It is a national level engineering entrance exam conducted by the National Testing Agency (NTA) for admission to premier technical institutions, including NITs, IIITs, and IITs. The exam consists of two stages:
 1. **JEE Main:** Entrance exam for NITs, IIITs, and many top colleges. It also acts as eligibility for JEE Advanced.
 2. **JEE Advanced:** Exam conducted for admission into the IITs.
- **EAPCET (Engineering, Agriculture & Pharmacy Common Entrance Test)** – State level entrance exam for Telangana engineering colleges.
- **NDA (National Defence Academy)** – For students who want to join Indian Army, Navy, Air Force.

Career Options After MPC:

BiPC (Biology, Physics, Chemistry) is one of the most respected and impactful streams after 10th because it opens doors to careers that save lives and improve society. Biology helps students understand living systems and the human body. Physics develops analytical thinking and explains how medical technologies work. Chemistry builds scientific understanding of medicines and reactions inside the body. Together, these subjects not only prepare students for competitive exams but also develop compassion, precision, and real-world problem-solving skills essential for healthcare and research careers.

Core Subjects:

- Biology
 - Physics
 - Chemistry
 - English
- + Communication & Life Skills

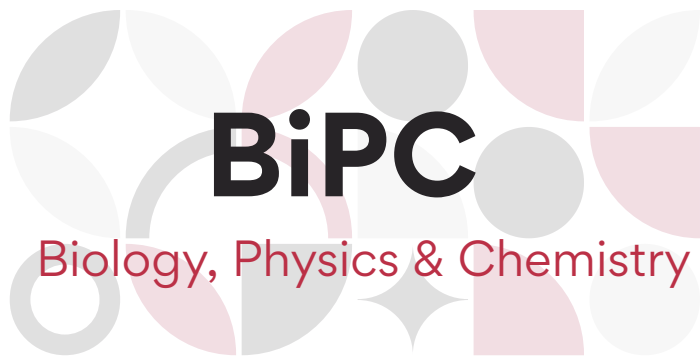

Foundation:

- NEET
- EAPCET

NEET/EAPCET:

- **NEET (National Eligibility cum Entrance Test)** – It is India's primary, mandatory, national-level entrance examination for students seeking admission to undergraduate (UG) medical, dental, and AYUSH courses, such as MBBS and BDS, in government and private colleges. If a student dreams of becoming a Doctor, NEET is compulsory.
- **EAPCET (Engineering, Agriculture and Pharmacy Common Entrance Test)** – For BiPC (Biology, Physics, Chemistry) students, it is the qualifying exam for undergraduate courses in Agriculture, Pharmacy, Veterinary, and Food Technology in Telangana.

Career Options After BiPC:

MEC

Maths, Economics & Commerce

MEC is the right stream for students who are interested in business, finance, money management, and entrepreneurship. Mathematics strengthens logical and quantitative ability. Economics helps students understand how markets, money, and the economy work. Commerce builds knowledge about business, accounting, taxation, and finance. Together, MEC prepares students for careers in finance, management, law, and business leadership.

Core Subjects:

- Mathematics
 - Economics
 - Commerce
 - English
- + Communication & Life Skills

Foundation:

- CA/CMA/CS Foundation
- CUET

CA/CMA/CS/CUET

- **CA (Chartered Accountant) Foundation** - CA is one of the most prestigious professional courses in commerce. MEC students are highly suited because Mathematics and Commerce help in Accounting, Taxation, Auditing, and Financial Management. After clearing CA, students can work in audit firms, multinational companies, or start their own practice.
- **CMA (Cost & Management Accountant) Foundation** - CMA focuses on cost control, budgeting, financial planning, and business strategy. MEC students benefit from their mathematics background for cost analysis and financial calculations.
- **CS (Company Secretary) Foundation** - CS professionals handle company laws, corporate governance, legal compliance, and board procedures. MEC students with economics and commerce background can easily understand business regulations and corporate structure.
- **CUET (Common University Entrance Test)** - CUET is a national level entrance exam conducted by National Testing Agency for admission into central universities like University of Delhi, Banaras Hindu University, and other central institutions for courses like B.Com, BBA, BA Economics, and more.

CAREER COMPASS

by APEKSHA

Career Options After MEC:

Chartered Accountant (CA)

Students can become Chartered Accountants handling auditing, taxation, and financial management. It is one of the most prestigious careers in commerce.

Company Secretary (CS)

Students can become legal and corporate advisors managing company compliance and governance. This profession plays a key role in corporate management.

Cost & Management Accountant (CMA)

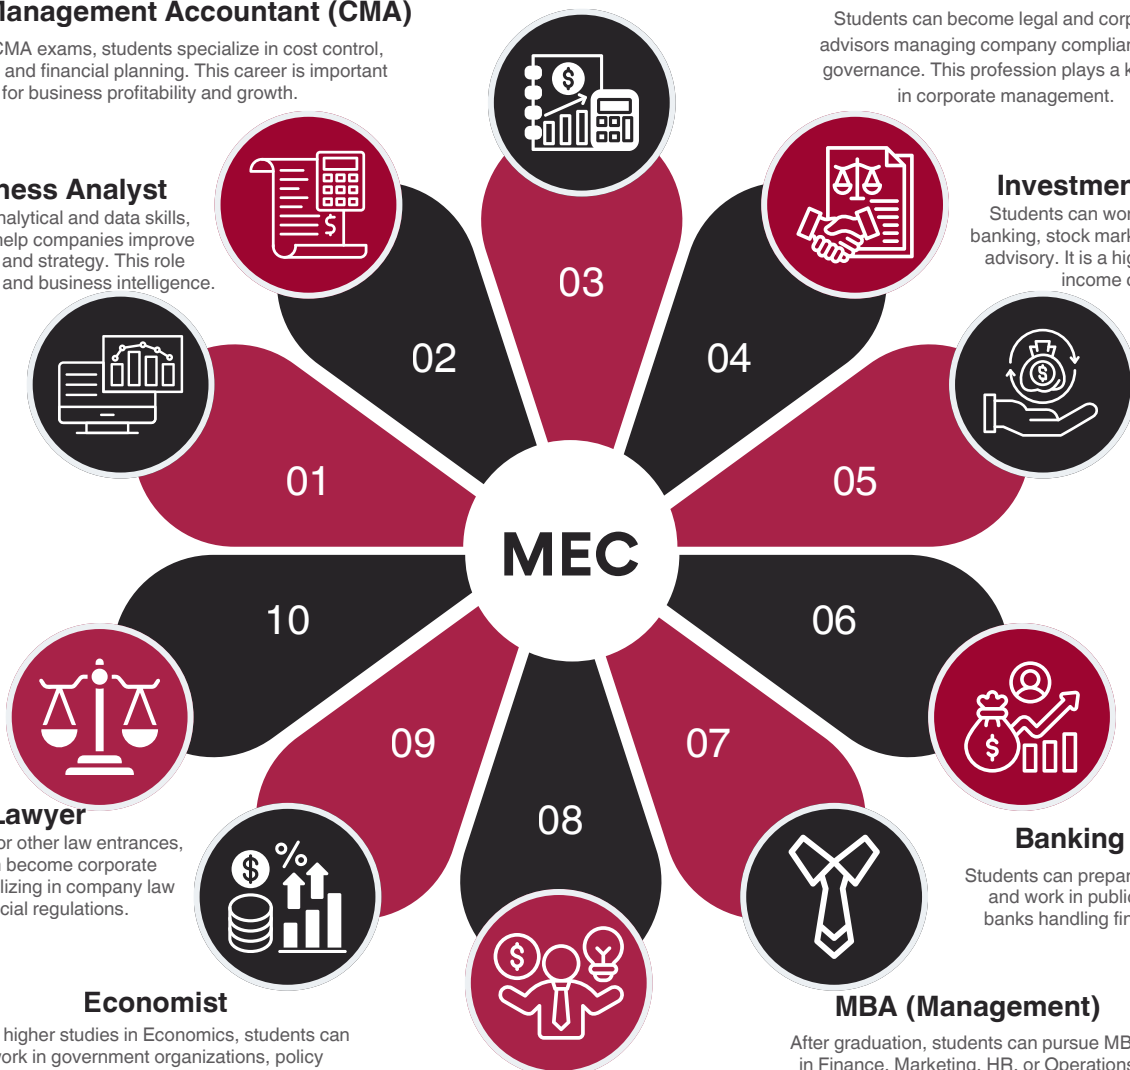

Through CMA exams, students specialize in cost control, budgeting, and financial planning. This career is important for business profitability and growth.

Business Analyst

With strong analytical and data skills, students can help companies improve performance and strategy. This role combines maths and business intelligence.

Investment Banker

Students can work in investment banking, stock markets, and financial advisory. It is a high-growth, high-income career.

Lawyer

Through CLAT or other law entrances, students can become corporate lawyers specializing in company law and financial regulations.

Banking & Finance

Students can prepare for banking exams and work in public or private sector banks handling financial operations.

Economist

With higher studies in Economics, students can work in government organizations, policy research, and financial institutions.

MBA (Management)

After graduation, students can pursue MBA in Finance, Marketing, HR, or Operations and enter leadership roles in top companies.

Entrepreneur

Students can start their own business using knowledge of finance, accounting, and market analysis. MEC builds a strong foundation for startups.

CEC

Civics, Economics & Commerce

CAREER 
COMPASS
by APEKSHA

CEC is designed for students who are interested in business, law, management, administration, and finance. Civics helps students understand the Constitution, governance, political systems, and public administration. It builds awareness about how the government functions and prepares students for civil services and law careers. Economics teaches concepts like demand and supply, markets, banking, inflation, national income, and economic development. It helps students understand how businesses and economies operate at national and global levels. Commerce focuses on accounting, business studies, trade, taxation, entrepreneurship, and financial management. It builds a strong foundation for careers in CA, CS, B.Com, BBA, and MBA.

Core Subjects:

- Mathematics
 - Economics
 - Commerce
 - English
- + Communication & Life Skills

Foundation:

- IPMAT
- CLAT
- CUET

IPMAT/CLAT/CUET

- **IPMAT (Integrated Program in Management Aptitude Test)** - IPMAT is a national level entrance exam for admission to 5-year BBA+MBA programs at IIM Indore, IIM Rohtak, IIM Ranchi, and other top institutes. Students who qualify can directly enter prestigious IIMs after Intermediate without writing CAT later.
- **CLAT (Common Law Admission Test)** - CLAT is the national level entrance exam for admission into top National Law Universities. Through CLAT, students can pursue 5-year integrated law programs such as BA LLB and BBA LLB.
- **CUET (Common University Entrance Test)** - CUET is a national level entrance exam conducted by National Testing Agency for admission into central universities like University of Delhi, Banaras Hindu University, and other central institutions for courses like B.Com, BBA, BA Economics, and more.

CEC

Civics, Economics & Commerce

Career Options After CEC:

Bachelor of Business Administration (BBA)

BBA prepares students for leadership and managerial roles. It focuses on marketing, finance, human resources, and business strategy, helping students build a strong base for MBA and corporate careers.

Bachelor of Commerce (B.Com)

Students can pursue B.Com in General, Computers, or Honors. It provides strong foundations in accounting, taxation, finance, and business management.

Master of Business Administration (MBA)

After BBA, students can pursue MBA in Finance, Marketing, HR, or Operations and enter leadership roles in top companies.

Law (LLB)

Law offers careers as advocates, legal advisors, corporate lawyers. It is a respected profession with opportunities in courts and corporate firms.

Banking & Finance

Students can prepare for banking exams and work in public or private sector banks handling financial operations.

Business Analyst

With strong analytical and data skills, students can help companies improve performance and strategy. This role combines maths and business intelligence.

Digital Marketing

With additional certification courses, CEC students can enter modern fields like digital marketing, e-commerce management, which are in high demand in today's digital economy.

Entrepreneur

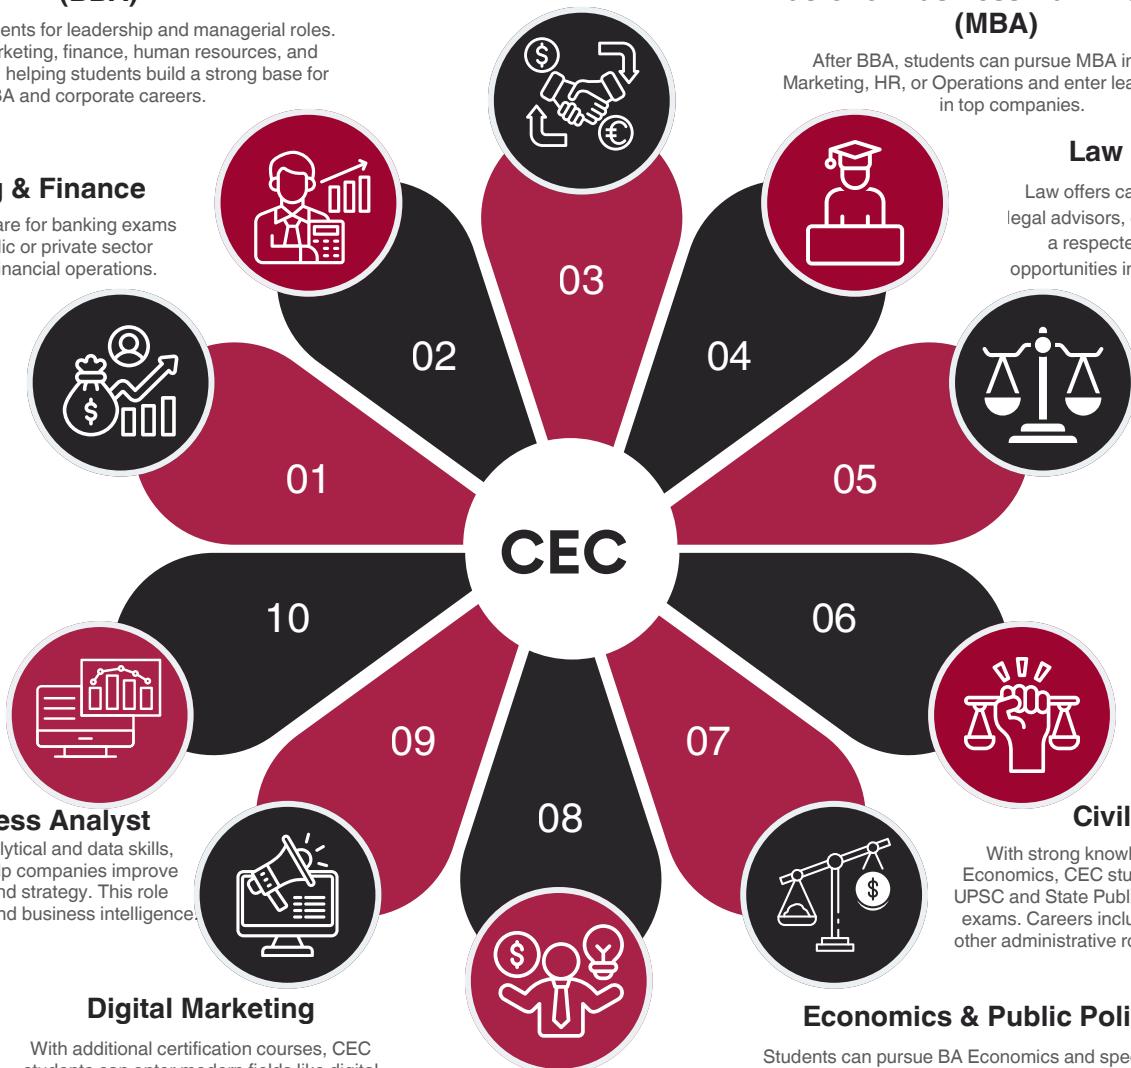

Students can start their own business using knowledge of finance, accounting, and market analysis. MEC builds a strong foundation for startups.

Economics & Public Policy

Students can pursue BA Economics and specialize in economic analysis, research, and policy-making. Careers are available in government departments, think tanks, and international organizations.

Civil Services

With strong knowledge of Civics and Economics, CEC students can prepare for UPSC and State Public Service Commission exams. Careers include IAS, IPS, IFS, and other administrative roles serving the nation.

WHY APEKSHA ?

Choosing the right college after 10th is one of the most important decisions in a student's life. **Apeksha** is not just an institution, it is a foundation for academic excellence, discipline, and future success.

Academics + Competitive Coachings + Communication & Life Skills = APEKSHA's Aspirant

A

Strong Academic Foundation

At Apeksha, we focus on concept based teaching to build strong fundamentals in MPC, BiPC, MEC, and CEC. This ensures students understand subjects deeply rather than relying on memorization.

P

Experienced & Dedicated Faculty

Our qualified and committed faculty members guide students with structured lesson plans, clear explanations, and continuous mentoring support.

E

Integrated Competitive Exam Preparation

Along with Intermediate syllabus, we provide foundation-level preparation for NEET, EAPCET, CA Foundation, CLAT, IPMAT, and CUET, giving students an early advantage.

K

Small Batch Size & Personal Attention

Limited students per section allow individual attention, regular doubt clarification, and close academic monitoring.

S

Holistic Development

Beyond academics, we focus on confidence building, personality development, and career guidance to prepare students for future success.

H

Hostel & Boarding Facility

Comfortable and secure hostel facilities with proper supervision help students concentrate fully on academics.

A

Learning App & 360° Support

Apeksha Learning App provides students with anytime, anywhere access to academic content. It ensures learning continues beyond classroom hours.

EXAM READY VS LIFE READY

CAREER COMPASS

by APEKSHA

In today's education system, many institutions focus only on making students exam ready, where success is measured mainly through marks and ranks. However, true education should prepare students not just for exams but for real life challenges. At [Apeksha](#), we focus on developing both academic excellence and essential life skills so that students are confident, capable, and future ready.

Exam Ready Approach

An exam ready approach focuses mainly on completing the syllabus and preparing students to perform well in tests. While this helps in achieving good marks, it often leaves little room for personal development, creativity, or understanding individual strengths and career goals.

Life-Ready Approach

At [Apeksha](#), learning goes beyond textbooks. Along with strong academic preparation, we focus on building confidence, communication skills, discipline, and critical thinking. Through mentoring and personal guidance, students are encouraged to discover their potential and prepare for both competitive exams and future careers.

Our Belief

We believe that every student is unique and deserves the right guidance and support system. Our goal is to nurture confident learners and responsible individuals who are prepared not only to succeed in exams but also to achieve success in life.

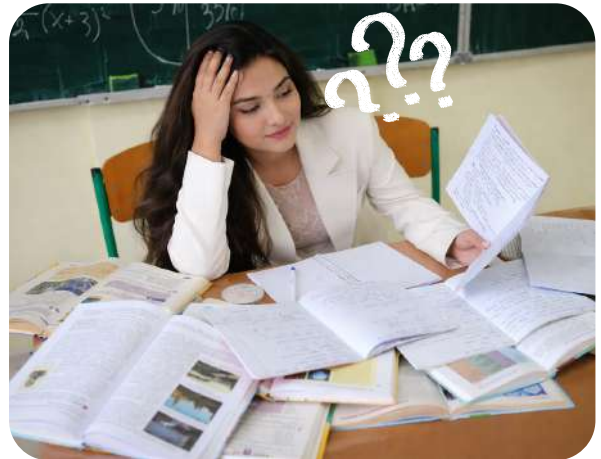

THE “APEKSHA” DIFFERENCE

In today's competitive education system, many corporate institutions focus only on showcasing the top 1% results, while the majority of students are left struggling under pressure and unrealistic expectations. At **Apeksha**, we believe education is not about producing a few ranks, it is about building every student's future. We focus on identifying individual strengths, nurturing real capabilities, and guiding students toward meaningful success.

Understanding Student Aspirations

Every student enters Intermediate with queries in their mind:

- What are my real capabilities?
- What is my true dream?
- How can I grow without unnecessary pressure?

Addressing Parent Concerns

We understand that parents seek not just marks, but long term growth for their children. Common concerns include:

- How can I improve my child's academic performance?
- How can I nurture my child's dreams?
- Will they receive balanced academic and life education?

Apeksha's Core Belief

At **Apeksha**, we are committed to:

- Understanding each student's strengths and learning style
- Aligning State/CBSE curriculum with competitive exam preparation
- Providing individual mentoring and academic performance tracking
- Developing life skills, confidence, and leadership qualities
- Preparing students not just for exams, but for life

BRIDGE PROGRAM

2026

CAREER COMPASS
by APEKSHA

At **Apeksha**, we believe that a strong foundation in the beginning makes a confident topper in the future. Starting from March, we are launching our Bridge Program for XI Students, specially designed to help students smoothly transition from 10th class to Intermediate (MPC / BiPC / MEC / CEC). Students who have completed 10th class and want a strong start in Intermediate/CBSE, Better academic performance, Early preparation for competitive exams, Confidence in core subjects.

What is Bridge Program?

The Bridge Program is a foundation course that strengthens the basic concepts required for Intermediate/CBSE subjects. Many students struggle in the first few months because of sudden syllabus depth. Our program eliminates that gap.

We revise and build strong fundamentals in:

- Core subject basics (Maths / Biology / Commerce / Economics / Physics / Chemistry)
- Concept clarity before regular syllabus begins
- Academic discipline and study planning
- Introduction to competitive exam pattern (IIT-JEE, NEET, NDA, EAPCET, CA Foundation, CLAT, IPMAT, CUET, based on stream)

Why Join the Bridge Program?

Students get early exposure to Intermediate level concepts, helping them gain confidence before the academic year officially starts. It improves problem solving ability, strengthens fundamentals, and develops competitive exam orientation from Day One. This early start gives students a clear advantage over others.

OUR VALUES

CAREER COMPASS

by APEKSHA

At **Apeksha**, our values define who we are and guide everything we do. We believe that true education goes beyond textbooks, it shapes character, builds discipline, and prepares students for life.

- We are committed to delivering high-quality, concept based education that builds strong foundations and encourages consistent performance in both board and competitive examinations.
- Honesty, fairness, and ethical practices are at the core of our institution. We maintain transparent communication with students and parents regarding academic progress and performance.
- We foster a structured and disciplined learning environment that helps students develop responsibility, time management, and focus essential qualities for long term success.
- Every student is unique. We provide personal attention, mentorship, and guidance to help each learner realize their full potential.
- We constantly upgrade our teaching methods, academic planning, and digital learning tools to ensure students receive the best educational experience.
- Our goal is not just to teach, but to guide students toward achieving their dreams whether in professional courses, competitive exams, or higher education.
- At Apeksha, our values shape confident individuals, responsible citizens, and future leaders.
